your skin with the world's only skincare miracle
made with organic, Hawaiian botanicals...

Revealed, at last, in this letter...

Why Hawaiians Don't Age Like the Rest of Us

And the age-erasing beauty secret
they've been using for hundreds of
years and how you can try it now -

RISK FREE!

*Flattering, skin-tightening, youthful
results guaranteed or your money back!*

Dear Friend,

When I first went to Hawaii 25 years ago, I was enchanted by the beauty of the islands like everyone else, but it was the beauty of the people that struck me even more.

I'm not talking about just young people, but men and women in their 50s, 60s, 70s, 80s and even older who had a spark, vitality and glow in their eyes and skin.

And I thought, "What's up with that?" Hawaiians spend all this time out in the sun, which we're told is not good for us, so how could their skin stay so moist, supple and smooth?

Why don't Hawaiians age like the rest of us and what was unique to Hawaii that gave their skin such a vibrant, youthful glow - even as they age?

As I started searching for an answer...

I met a woman who gave me something she called "green gold."

continues next page...

It was the darkest, most green oil I had ever seen. She told me this oil would heal any skin abrasion.

She said the green gold was from the Kamani tree, better known as the Tamanu which bears a fruit that contains a nut that produces the dark, green healing oil.

She then told me about two other nut oils, the macadamia nut oil and kukui nut that each hold equally amazing healing properties.

I was so excited by what she had told me I wanted to start using them right away, but I slowed myself down and..

Decided to examine the science behind these healing oils and I discovered there was real, solid evidence to support what she had told me about them.

The result is this: I combined all three of these ancient healing nut oils together with the latest in plant science to create the world's only chemical-free, anti-aging skin cream using organic Hawaiian botanicals.

I call this formula *makana* which means GIFT in Hawaiian

Unlike any other skincare formula on the market, *makana* contains the ancient Hawaiian secret to younger skin – but not just younger skin, but also... moist, plump, hydrated, healthy skin.

What *makana* offers you today is nothing less than the gift of age-defying beauty. Here's my promise to you...

In just the first 30 days of use or less, you can watch your skin smooth out and look and feel younger. And with continued use, *makana* will repair, firm, moisturize and rejuvenate your skin like never before.

***makana* - Your 4-in-1 anti-aging solution Here's how *makana* works...**

The ancient healing oils in *makana* – tamanu oil, kukui oil and macadamia oil – contain unique and powerful essential fatty acids that help protect and replenish your skin's natural oil barrier – unlike anything else on earth.

These essential fatty acids are critical in keeping your skin hydrated, plump and young looking. How?

As you age, you lose oil and water in the cell structure of your face. The essential fatty acids found in *makana* enable your skin to

replace old, leaky cells with new younger, stronger cells that can better retain water.

THE CENTRAL DIFFERENCE BETWEEN OLDER, SAGGY SKIN AND YOUTHFUL SKIN IS THE ABILITY OF YOUTHFUL SKIN TO HOLD MOISTURE AND OIL.

The unique essential fatty acids found in *makana* help your skin to build strong cells that can stay hydrated and in turn, lift your skin and keep it moist and plump.

Do not confuse the ancient healing oils found in *makana* with substances that will make your skin feel oily. These oils which contain unique essential fatty acids – not found anywhere else – penetrate deep into the epidermis of your skin so it can retain moisture and lock it in.

The ancient skin-lifting oils in *makana* are just the start of this remarkable 4-in-1 formula

Your body's production of collagen – the primary protein foundation in your skin – begins to break down starting around 35. And without collagen, your skin starts to dry out and wrinkle. And it only gets worse as you age. But it doesn't have to be that way. Here's why...

With one multipurpose, chemical-free formula, *makana* lets you fall in love with your skin again by solving four needs at once!

***makana* solution #1: Anti-Aging Repair** – *makana* extends the life of your cell membranes. How? *makana* contains powerful antioxidants that shield your skin cells from attack by free radicals, preserving your skin's elasticity and smoothing out fine lines.

In controlled clinical testing, 83% of the volunteers reported a significant reduction in laugh lines and forehead wrinkles.

***makana* solution #2: All-Day Moisturizing** – For the vast majority of women over 35, their skin starts to dry out. The healing oils found in *makana* keep your skin smooth, supple and hydrated all day long – without the use of harmful chemicals that can clog your pores, harm your skin, break down the oil barrier and add to the toxic overload your body is already working hard to fend off.

96% of volunteers who used the active ingredients found in *makana* reported softer, smoother and more hydrated skin.

***makana* solution #3: Firming Eye Treatment** – Patented active plant-based ingredients in *makana* help tighten and firm the delicate skin around your eyes and help reduce dark circles.

continues next page...

92% of volunteers reported dramatically reduced puffiness in the eye area.

makana solution #4: Night Rejuvenation – *makana* actually repairs your skin while you sleep by using a proven algae extract that helps replenish stressed cells at night.

How does *makana* rejuvenate your skin at night?

I combined *makana's* ancient healing oils with the most proven plant rejuvenators like grape seed oil... aloe vera gel.. hibiscus flower extract and green tea extract to keep your skin moist – even as it loses moisture at night.

Green tea extract, for example, helps slow the breakdown of collagen while aloe vera softens and smoothes your skin when your skin is "resting."

With its high concentration of amino acids, hibiscus flower extract helps your skin to retain moisture and elasticity.

The One Place You Don't Want to Lose Fat

The lipids or fats found on the surface of your skin are the natural shield that protects it from external insults and free radical attack. But as you age, you actually lose fat in your face which is the one place you don't want to lose it.

Which is why *makana* includes vitamin E and CoQ10.

Like no two other antioxidants, vitamin E and CoQ10 work together to restore the lipid barrier in your face and increase its ability to resist oxidative stress associated with environmental pollution.

99% of all skincare on the market is toxic

One of the reasons why Hawaiians have beautiful skin is because they DO NOT put harmful, toxic chemicals on their skin, ever.

The biggest single reason why I created *makana* is because 99% of all skincare on the market – regardless of what it says – is POISON. It's harmful for your skin and your body. It made me sick to think the truth about what is really in most skincare is covered up with attractive labeling like – all natural, clinically proven and even organic, but the unvarnished truth is this...

There are over 100,000 chemicals found in our water, air and soil. None of us needs any more and certainly don't need to put any more chemicals on our face where those toxins can find their way into our bloodstream and do even more harm.

When you closely examine 99% of all skincare on the market, you'll discover it contains such toxic things as...

Parabens, Sodium laurel, Lauryl Sulfate, Acrylamide, Propylene Glycol, Phenol Carboic Acid, Dioxane, Toluene, Phenoxyethanol, Sodium Benzoate, plus a wide range of petroleum-derivative toxins.

That's right, there are thousands of skincare products that rely upon some variation of GASOLINE to preserve their ingredients... and guess what, these petroleum-derived ingredients routinely irritate, redden, dry and permanently damage your skin.

Women (and men) are now seeing the results of using organic, chemical-free *makana*

makana is manufactured in a certified organic, FDA-approved facility using native and organic ingredients extracted from botanicals found in Hawaii.

The ingredients are not only safe for your skin, (AND SAFE ENOUGH TO EAT) they also work in harmony with your body's inner healing intelligence for more deeply therapeutic results.

When you use *makana*, you can rest assured you are using a natural, chemical-free preservation system that relies upon mother nature to keep it safe for you or anyone in your family, even a week-old baby.

IF YOU CURRENTLY USE ANY SKINCARE THAT YOU COULDN'T EAT OR USE WITH COMPLETE CONFIDENCE ON A WEEK-OLD BABY, IT'S NOT SAFE ENOUGH TO KEEP AND I RECOMMEND YOU THROW IT OUT.

YOUR OLD SKINCARE FORMULAS MAY APPEAR TO GIVE YOU RESULTS, BUT IN THE LONG RUN, THEY WILL CAUSE YOU PROBLEMS. BIG PROBLEMS THAT CAN BE VERY DIFFICULT TO FIX.

Recommended by famous woman M.D. and plastic surgeon

Christine Horner, MD, nationally-recognized surgeon, award-winning author, and natural health expert says,

"*makana* protects your skin against aging and ultraviolet damage, firms the eye area and works overnight to hydrate, repair and revitalize the skin."

By using *makana*, women thirty-five to ninety-five have made real changes with crow's feet, lip lines, puffy eyes, saggy skin, dry skin, blemishes and laugh lines.

GET BIG SAVINGS ONLY BY DIRECT ORDER NOW!

You might expect that a 4-in-1 multipurpose skincare formula that can outperform your moisturizer, your night cream, your eye cream and your anti-aging serum would cost a small fortune. But, right now, you can take advantage of big savings...

continues page 7...

Alice D, age 53 of Farmingville NY says... "I love how it moisturizes and tightens my skin without applying a boatload of products. I used to pay up to \$365 every few months. Now I get four times the results for just a fraction of the price!"

Lynda S., age 60 from St. Petersburg, Fl. writes... "Over the years, I have used more skincare products than you can imagine. Two months ago a friend sent me *makana*. I have been using it, morning and night, for two months. I look at least 10 years younger! No fine lines and a real glow. This is what I had hoped for with countless other products. Now, I have finally found the result I was seeking with *makana*. I will never use anything else."

Carolyn W, Sebastian, Florida writes... "Since 2012, I have been using *makana*, a wonderful skin product. *makana* is an anti-aging serum, all day moisturizer, eye cream and night cream — all in one. It has the added benefit of being 70% organic. There is no way I would change to any other skin product for my face. In addition, *makana* is a wonderful company to do business with."

Joan Z. of Taos, New Mexico writes... "Best product I have ever used! I truly think *makana* is the best product I have ever used on my face. It provides excellent hydration in very dry New Mexico. I also noticed a reduction of fine lines. Will definitely plan on ordering again."

Chrisy W. of Burnsville, MN writes... "Minimized fine lines around my eyes. I like the fact that my skin feels tight within a half hour of using *makana* and that tightness lasts a good portion of the day. It helped hydrate, moisturize and tighten my skin while it has minimized fine lines around my eyes."

"I absolutely LOVE this product! I have very oily, blemish-prone skin, despite being in my mid-forties. I've always been very diligent about my skin care routine and have been a faithful Mary Kay or Aveda user since high school, but this trumps all! I've been using *makana* for about two weeks now and cannot believe how great my skin looks and feels! I am no longer an oil slick by midday! I can actually feel and see a difference in the texture and tone of my skin, and the size of my pores." — **Diana F**

"I Love The Product. Smells great and feels wonderful. I have always had dry skin and I feel like this product has really hydrated my skin while improving my complexion." — **Emily R**

"I have been moisturizing with *makana* for a couple of months now and I have completely stopped wearing my mineral make up. My skin tone is now even and hydrated. Putting *makana* on my face feels like gliding silk on my skin. As a massage therapist, I pay attention to the texture and glide of any cream I use. A little *makana* goes a long way and never feels watery or oily. I also love the subtle, citrus smell." — **Nicole W**

"I love the simplicity of *makana* and I enjoy using it as a daily serum, day moisturizer and night cream. I love how it makes my skin feel and look. I am a savvy consumer who values clean, green, safe products for my family. My husband loves the smell — it reminds him of the time we have spent in Hawaii." Mahalo, *makana*! — **Kary Kruger**

From Dr. Christine:

The only little skincare booklet you will ever need...

The 10 Most Powerful Tips for Radiant Skin and Lifelong Health

from plastic surgeon,
Christine Horner, MD

Radiant skin tip #1 *Skincare is not just a vanity issue.* Skincare is not just a vanity issue. Your skin is your largest detoxifying organ. If you have healthy-looking skin, chances are you are healthy and vital as well. The health of your skin is linked to your diet, digestion, and lifestyle including exercise, water intake, quality of sleep, stress, sun exposure and toxins.

Radiant skin tip #2 *You are what you eat.*

Inflammation-creating foods are the primary culprit behind poor skin. Instead of the standard American diet (SAD) of cookies, cakes, ice cream, and soda pop, always choose to eat organic fruits, vegetables, nuts, seeds, olive oil and flax seed oil. This is the clean fuel your skin and the rest of your body will love and thank you for.

Radiant skin tip #3 *Never put anything on your skin you wouldn't eat.* Your skin is a direct link to your bloodstream. What you put on it becomes a part of your body – immediately. This is why you must NOT use products with chemicals. We already get enough chemicals. None of us needs more.

Radiant skin tip #4 *Insulin spikes are insults to your skin.* Most of us grow up loving sugar, but sugar demands high insulin levels. Increased insulin in your blood sets the stage for weight gain, diabetes and increased inflammation throughout your body, including your skin. Pass on the cake and cookies and grab the fresh melon, berries or watermelon. Your skin will love the smart choice.

Radiant skin tip #5 *The Best "Rust-Proofing" Antioxidants for your skin.* A growing body of scientists believe that the internal production of antioxidants is not adequate to neutralize all the free radicals found in our air, water, soil and food. So, you need to supplement with the highest quality antioxidants including green tea extract, lumeric, vitamin E, grape seed oil, alpha lipoic acid, and CoQ10 – many of which are found in makana.

Radiant skin tip #6 *Water – The True Miracle Worker for your skin.* Almost everyone knows that it's important to drink water everyday, but how much water does your skin need? The easy formula is to take your body weight and divide it in half. That's the amount in ounces you should drink daily. Since your body is comprised of 70% water, water intake is the single most vital choice you can make for healthy skin.

Radiant skin tip #7 *Healthy Oils.* Where the truth is told. Just as a car needs oil to run, so your body is designed to use healthy fats to keep it lubricated and energized. Fat is your body's most concentrated form of energy. If you use healthy fats – like those found in wild-caught salmon and flax seed oil – instead of junk-calorie carbs, your digestion and energy will improve and your skin will reflect a body that runs efficiently on healthy fat instead of sugar.

Radiant skin tip #8 *Your skin can't thrive without sunlight.* We hear a lot about how much we must always protect ourselves against sunlight, but the fact is, you need the most active form of vitamin D found only through sunlight to achieve and maintain radiant skin. Because vitamin D plays a key role in skin cell metabolism and growth, you need to get at least 20 minutes of sunlight three times a week – without sunscreen.

continues...

Radiant skin tip #9 *Avoid chemicals in your sunblock.* 99% of all sunblocks and screens use chemicals, but they are not for you. Use a sunscreen that does not use chemical preservatives, dyes, lanolin, formaldehyde, PABA or benzophenones. These chemicals will dry and irritate your skin and expose your body to toxins you don't need.

Radiant skin tip #10 *Use makana – the only chemical-free, anti-aging skincare made with organic Hawaiian Botanicals.* Toxic sludge from undigested animal fats, sugar bloat and everyday pollutants cause so many health problems for women. When you make simple diet and lifestyle changes, combined with an organic, chemical-free formula like **makana**, you are putting yourself in a position to enjoy both radiant skin and lifelong health. Unlike any other formula I've used, **makana** protects your skin against aging and works overnight to repair and revitalize your skin. There's nothing else like it I've found and that's why I recommend it to my patients.

To get your risk-free trial of **makana** – the world's only chemical-free, anti-aging skincare on the planet made with organic Hawaiian botanicals – just call **1-855-333-9837** today!

There's nothing else like it anywhere!

THE BIG SKINCARE COVER UP!

Big skincare companies claim to use only "green" chemicals, but do you really want to put fire retardants, engine degreasers, paint solvents and floor detergents on your face? **I HOPE NOT!!!**

Skincare is thought to be the "perfect storm" for something that can spoil. Why? Because most skincare products contain water which makes them the perfect breeding ground for micro-organisms. What the big skincare companies have done is rely upon the *Handbook of Green Chemicals* which gives the green light to a number of chemicals used in the preservation of skincare.

Big skincare companies claim that because their preservatives fall below a 0.5% level, they are safe to use. The problem is, there's no such thing as a green chemical that's safe, not even "generally recognized as safe." If it were really safe, you could eat it just like food. But trust me, if you were to eat the chemicals found in 99% of the skincare on the market today, you would get very sick.

Whether you shop at a discount department store or a high-end boutique, you'll find skincare that may look great in a tube or box. It may smell nice and feel smooth on the skin, but if you read the label, you'll discover these products also contain synthetic dyes, disinfectants, emollients, preservatives, and detergents, among other toxic ingredients – that are anything but green and safe. Sadly, chemicals are absorbed through the skin, blood and the digestive system, but your skin is the most vulnerable of the three ways chemical absorption can take place.

Check out these 11 toxic culprits found in most skincare.

Compare this list to the ingredients found in what you're using right now...

☠ **1. Toxic Colors:** Synthetic dyes like D and C, and FD. They are possible carcinogens.

☠ **2. Toxic Disinfectants:** Many manufacturers use hydroquinone bromide to protect their products. This harsh chemical can irritate and permanently harm your skin.

☠ **3. Toxic Parabens:** They are a chemical compound of para-hydroxybenzoic acid. They are used to fight bacteria and fungus. Parabens can mimic estrogen which is known to play a role in the development of breast cancers and can adversely affect the male reproductive system. They are found in everything from shampoos to toothpaste.

☠ **4. Toxic Fragrance:** This usually means a synthetic fragrance used to hide a chemical smell. Chemical fragrances often cause allergic reactions.

☠ **5. Toxic Humectants:** It is used to absorb extra water and maintain moisture in certain medicines, cosmetics, or food products. It is a solvent for food colors and flavors, and in the paint and plastics industries. Propylene glycol is also used to create artificial smoke or fog used in fire-fighting training. Other names for propylene glycol are 1,2-dihydroxypropane, 1,2-propanediol, methyl glycol, and trimethyl glycol.

☠ **6. Toxic Preservatives:** There is a long list of poisons used in the skincare and cosmetic industry including Phenolcarbolic acid, Dioxane, Toluene, Phenoxyethanol, Sodium benzoate, plus a wide range of petroleum-derivative toxins that are approved as "green chemicals," but are they anything but safe.

☠ **7. Toxic Emollients:** A typical emollient is mineral oil which is petroleum derivative, used primarily in the automotive industry. Because it's so inexpensive, it's commonly used in the cosmetic industry and in baby oil. It's poorly absorbed, tends to block pores, causes blackheads and prevents the skin from breathing. It has no business on your skin.

☠ **8. Toxic Detergents:** Harsh detergents, such as lauryl sulfate and sodium lauryl, are found in car washes, engine degreasers and in over 90% of all personal care products. These sulfates break down the skin's moisture barrier, easily penetrate the skin and allow other chemicals to penetrate the skin. Sulfates, when combined with other chemicals it drags with it, become a potent class of carcinogen.

☠ **9. Toxic Phenol Carbolic Acid:** This poison is found in many high end skin creams. In lab research, it is linked to mammary tumors.

☠ **10. Toxic Toluene:** Made from petroleum or coal tar, chronic exposure to this one ingredient is linked to liver and kidney damage. Other names may include benzoic and benzyl.

☠ **11. Toxic Dioxane:** This is found in compounds known as PEG, Polysorbates, Laureth, ethoxylated alcohols and is very common in personal care products. The carcinogenic effects of dioxane were first reported by the National Cancer Institute in 1978.

If you're sick and tired of putting more toxic chemicals on your face, it's time to try chemical-free makana — RISK FREE!

makana is a multipurpose skincare formula that's very different from 99% of all skincare on the market.

makana relies upon a 100% natural preservation system that's so safe you could use it on a newborn.

Through the proven, healing power of organic Hawaiian botanicals, your skin can be smooth and radiant once more.

#1 Instant Anti-Aging Repair

- *Acemella oleracea*, a flowering herb widely regarded as a non-injectable Botox substitute
- Caprylic/capric triglyceride and *spilanthes acmella* flower extract, extremely fast and effective firming ingredients
- Vitamin E and CoQ10 (ubiquinone), protect the skin's natural oil (sebum)
- *Avena sativa* (oat kernel extract), retones, firms and smoothes the skin

#2 Luscious All-Day Moisturizing

- Tamanu oil, promotes the formation of new tissue, which speeds the growth of healthy skin
- Kukui oil, diminishes fine lines, improves elasticity and infuses the skin with antioxidants
- Macadamia nut oil, naturally rich in vitamin E, helps soften fine lines and wrinkles
- Jojoba seed oil, enhances the suppleness of the skin
- Unrefined shea butter, rich in vitamins A, E and F, helps promote new collagen
- Cocoa seed butter, dense with polyphenols, is effective at neutralizing free radicals

#3 Beautiful Eye-Firming Treatment

- *Fagus sylvatica* extract, a plant-based hydrating and smoothing ingredient from the buds of European or common beech, helps minimize the appearance of fine lines and aging, especially in the delicate skin around the eyes

#4 Miraculous Night Rejuvenation

- algae extract, replenishes the energy stores of stressed skin at night
- aloe vera gel, nature's way of healing, softening and smoothing the skin, especially effective when skin is "resting"
- grape seed oil, its powerful polyphenols help slow the aging of the skin
- hibiscus flower extract, helps improve the skin's flexibility, moisture retention and elasticity with its natural amino acids
- organic green tea extract, inhibits the breakdown of collagen

Here's the Chemical-Free Ingredient List for 70% Organic, Anti-Aging 4-in-1 makana!

- Aloe Barbadensis (Aloe Vera Gel) CERTIFIED ORGANIC
- Caprylic/Capric Triglyceride
- Carya ovata (Hickory) Bark Extract CERTIFIED ORGANIC
- Ceteryl Olivatate (and) Sorbitan Olivatate,
- Alcohol (and) Acemella Oleracea Extract
- Cetyl Palmitate (and) Sorbitan Palmitate (and) Sorbitan Olivatate
- Fagus Sylvatica Bud Extract
- Water (and) Avena Sativa (Oat) Kernel Extract
- Spilanthes Acemella Flower Extract
- Algae Extract
- Saccharide Isomerate
- Glycerin (and) Hibiscus Sabdariffa Flower Extract
- Squalane (and) Ubiquinone (CoQ10)
- Japanese Green Tea Leaf Extract ECO-CERTIFIED ORGANIC
- Calophyllum Inophyllum (Tamanu) Oil CERTIFIED ORGANIC
- Vitis Vinifera (Grape) Seed Oil
- Aleurites Mouccana (Kukui) Seed Oil
- Simmondsia Chinensis (Jojoba) Seed Oil CERTIFIED ORGANIC
- Helianthus Annuus (Sunflower) Seed Oil CERTIFIED ORGANIC,
- Tocopheryl Acetate (Vitamin E)
- Butyrospermum Parkii (Shea Butter) CERTIFIED ORGANIC
- Macadamia Ternifolia (Macadamia Nut) Oil CERTIFIED ORGANIC
- Theobroma Cacao (Cocoa) Seed Butter CERTIFIED ORGANIC
- Hydrogenated Lecithin,
- Citrus Sinensis (Orange) Oil
- Potassium Sorbate
- Xanthan Gum

Finally revealed:

The Hawaiian Secret to Younger Skin

And how it can help stop
your fine lines, puffy eyes,
dry skin and dark circles
from giving away your age.

*At last...one chemical-free cream lets
you solve 4 aging skin needs at once...*

Why Hawaiian oils are your skin's best friend.

The top three Hawaiian nut oils – tamanu, kukui and macadamia – contain high levels of essential fatty acids which are essential for softening your skin. Unlike any other oils, these are intensely hydrating and keep your skin soft and supple.

Amazing Healing Oil #1 Tamanu Nut Oil

Tamanu oil is called "green gold" by the Hawaiians because it can help "de-flame" nearly any skin irritation – even burns and abrasions.

Research shows that tamanu oil contains three basic classes of lipids – neutral lipids, glycolipids and phospholipids – that work together to penetrate deep into your skin's underlying connective tissue and repair it – FAST!

Amazing Healing Oil #2 Kukui Nut Oil

Hawaiians use a combination of coconut oil and kukui oil for sunblock protection. Rich in linoleic and linolenic fatty acids, kukui is one of Hawaii's supreme skin remedies.

It helps protect against premature aging, helps diminish fine lines and wrinkles, improves elasticity and infuses your skin with antioxidants to help fight free radicals and helps stimulate the production of collagen. It's easy to see why kukui oil is a must if you want soft, healthy, radiant skin for life.

Amazing Healing Oil #3 Macadamia Nut Oil

Macadamia nut oil is high in palmitoleic acid, a fatty acid that's similar to your skin's sebum, which tends to decrease naturally with aging.

It is naturally rich in vitamin E, which helps improve the appearance of scars, tones the skin and fights dryness.

If you want to put these amazing healing oils to work in your skin, try ***makana*** – RISK FREE.

There's nothing else like it anywhere.

makana works like we say it does or it's FREE!

Are you ready to fall in love with your skin again?

If your answer is "Maybe," or "Yes," then you owe it to yourself to try ***makana*** for 30 days – RISK FREE.

Everyone faces some sort of skin problem as they age. The problem could be puffy eyes, sun damage, dry skin, laugh lines or blotches.

makana can help with any skin problem associated with aging. It has been scientifically proven that the Hawaiian botanicals in ***makana*** can make your skin look healthier, younger and more vibrant while eliminating fine lines.

Unlike any other formula on the market, ***makana*** combines the three amazing Hawaiian oils with other healing oils, plus a number of other proven, patented ingredients to create a formula that can repair damaged cells, hydrate the skin and protect against signs of aging.

The result for you?

Radiant skin with a tropical glow.

If you want to repair, rebuild and rejuvenate your skin, then give ***makana*** a try.

There's nothing else like it anywhere.

Chemical-Free, Anti-Aging Cream
with Organic Hawaiian Botanicals

18275 N 59th Ave. #156 Glendale, AZ 85308

MKL-256-111575

Finally revealed:

The Hawaiian Secret to Younger Skin

And how it can help stop your fine lines, puffy eyes, dry skin and dark circles from giving away your age.

At last...one chemical-free cream lets you solve 4 aging skin needs at once...

Fall in love again with your skin with *makana's* 4-in-1 multi-purpose, anti-aging cream.

Your skin will love this organic formula.

So will your budget!

Why try *makana*, right now? For the first time, you can solve four of the most troubling skin challenges using one proven, anti-aging formula made from organic Hawaiian botanicals and state-of-the-art plant science.

How does *makana* de-age your face? *makana* means "gift" in Hawaiian. The gift of age-defying beauty you'll cherish. There's nothing else like it in any store.

In just a few days, you can almost watch your skin smooth out and look younger. And with continued use, *makana* will repair, firm, moisturize and rejuvenate your skin in 4 different ways...

makana solution #1:

Amazing Anti-Aging Repair

makana extends the life of your cell membranes. How? *makana* contains powerful antioxidants that shield your skin cells from attack by free radicals... preserving your skin's elasticity and... smoothing out fine lines.

In controlled clinical testing, 83% of the volunteers reported a significant reduction in laugh lines and forehead wrinkles.

makana solution #2:

Wonderful All-Day Moisturizing

For the vast majority of women over 35, their skin starts to dry out and that causes big problems. The healing oils found in *makana* keep your skin smooth, supple and hydrated all day long – without the use of harmful chemicals that can clog your pores, harm your skin and add to the toxic overload your body is already working hard to fend off.

96% of volunteers who used the active ingredients found in *makana* reported softer, smoother and more hydrated skin.

makana solution #3:

Beautiful Eye-Firming Treatment

Patented active ingredients in *makana* help tighten and firm the delicate skin around your eyes and help reduce dark circles.

92% of volunteers reported dramatically reduced puffiness in the eye area while also experiencing a pleasant and attractive tightening of the skin.

makana solution #4:

Miraculous Night Rejuvenation

makana actually repairs your skin while you sleep. Super antioxidants help protect and replenish your skin during sleep. Your body dehydrates while you sleep, but now you'll wake up with moist, supple, luxurious skin.

What can you expect from using *makana*?

When you put *makana* to work for at least 30 days, remarkable things can happen such as...

- Reduction of fine lines and wrinkles
- Reduction of dark under-eye circles
- Soft, silky skin texture
- Improved firmness
- Radiant, visibly healthy and hydrated skin

No matter what your age or current physical condition, you can now repair, rebuild and restore your skin with world's only chemical-free organic formula made with genuine Hawaiian botanicals.

If you've been searching for a 100% natural solution to younger-looking skin that minimizes the appearance of wrinkles, fine lines and dry skin, then...

You owe it to yourself to try *makana* for 30 days, risk-free. This is the day you tap into the secret of how to get and maintain radiant skin with a youthful glow for life.

Order your *makana* today and receive a FREE *makana* toner and FREE *makana* book, *The Hawaiian Secret to Beautiful, Radiant Skin for Life...*

*I have been moisturizing with **makana** for a couple of months now and I have completely stopped wearing my mineral make up. My skin tone is now even and hydrated. Putting **makana** on my face feels like gliding silk on my skin. As a massage therapist, I pay attention to the texture and glide of any cream I use. A little **makana** goes a long way and never feels watery or oily. I also love the subtle, citrus smell.*

– Nicole W.

*I can actually feel and see a difference! absolutely LOVE this product! I have very oily, blemish-prone skin, despite being in my mid-forties. I've always been very diligent about my skin care routine and have been a faithful Mary Kay® or Aveda™ user since high school, but this trumps all! I've been using **makana** for about two weeks now and cannot believe how great my skin looks and feels! I am no longer an oil slick by midday! I can actually feel and see a difference in the texture and tone of my skin, and the size of my pores. Because of my oiliness, I never use a moisturizer at night so I have just been using **makana** in the morning, but I may try it before bed also just to see if it'll give me super-model skin!*

– Diana E
